The Call for One Issued by Gen. Warner Today.

MEMBERS OF THE BIMETALLIC LEAGUE

Urged to Assemble in Chicago in August.

WHAT GEN. WARNER SAYS.

The following call for a national convention of the American Bimetallic League was issued from the national headquarters of the league

SUN BUILDING, WASHINGTON, D. C., July 4, 1893.

The recent culmination of events of the greatest moment to the people of this country calls for wise counsel and determined action on the part of all patriotic citizens. A concerted purpose is manifest to seize upon the present opportunity to destroy silver as money and to establish finally and forever the single gold standard, and at one stroke to change all debts to gold debts, with a never-ending rise of gold and fall of prices.

A financial disturbance, largely artificial and

needless, has been created as an "object lesson," and falsely attributed to the present silver law, in order out of it to create a manifestation of public sentiment, under cover of which the greater crime of overthrowing the money of the Constitution and establishing the single gold standard may be consummated. As a part of the same great conspiracy the mints of India have been closed, and the shock is felt Congress has been called to meet in extra

session on August 7. If at this session the money standard of the Constitution is over-thrown and the single gold standard is finally established, to be extended over the world, an economic revolution will have been inaugurated. more disastrous to the welfare of mankind, and especially to the producing and laboring classes, than any in the history of the world.

In view, therefore, of the threatening conditions that have arisen, and in answer to numerous appeals for action, the executive committee of the American Bimetallic League has deemed it proper to call a national convention to be held at Chicago, beginning August 1 and to continue as long as the convention may direct.

All members of the league are urged to attend, and all who are in favor of maintaining the money of the Constitution and opposed to the establishment of the single gold standard in the United States, without regard to party, are invited to attend and participate in the deliberations of the convention. All economic astions that have arisen, and in answer to numer-

are in close touch with their brethren through-out the country, and that they have sublime out the country, and that they have sublime confidence in their ability to stave off the blow which they think is aimed at them. They think that the attack will prove to their advantage by making them a fighting unit. The reason why the date of August 1 was chosen instead of a date late in July was that the silver Congressmen in the west telegraphed that they would not like to leave their homes earlier than necessary.

was a sharp fight between Chicago, St. Louis and Washington. The south and southwest favored St. Louis, and the east and nearby south, Washington. The only reason why Chicago prevailed was because of the inducements which the world's fair. ments which the world's fair and the cut rates

THE IDEA OF THE SILVER PEOPLE. The idea of the silver people is to meet at Chicago and adjourn to Washington. Here the convention will reassemble at about the time when Congress convenes and will probably con-

that body.

The proposition to establish a daily organ in Washington has taken an almost definite shape within the last day or two. The conversion of the National View into a daily has been suggested. There has been talk for a long time concentrate this force and locate the paper-elect at Washington. It is argued by the silver folks that this is the most favorable point at which to establish their plant and paper.

NO COMPROMISE EFFECTED.

pany's office that the road was being run smoothly, and that there were some six cars in use on the main line and about half the numin and signed the agreement and entirely new men had also been engaged. By tomorrow it was expected that the road would be running in its normal condition.

The Evening Star.

Naval Officers Very Much Interested in the Official Reports. to Be Followed. What a Technical Expert Says Upon the

Subject-An Error of Judgment-The Lesson of the Affair. Naval officers are very much interested in the

official reports of the accident to the Victoria. Prospect of a Vigorous Fight in All those with whom a STAR reporter talked on the subject say that it is now perfectly clear that the accident resulted from attempting a difficult maneuver in too small a space, or in other words, that it was simply an error of judgment in the matter of distances. One high officer who is considered a tactical expert made the following statement to a STAR reporter with the express stipulation that his

name should not be used:

AN ERROR OF JUDGMENT. "It's hard to say anything on the subject, for but the plan upon which these ideas are to here is one of the very best tacticians of the be carried into execution are things English, or of any other navy, who makes an that must be decided hereafter. Between now English, or of any other navy, who makes an error. Here a man of great experience and superior ability failed in his judgment. To my mind it simply shows the necessity of commanding officers being at all times in absolutely perfect physical and mental condition. It is stated in the earlier telegrams that Admiral Tryon had just left the sick list. If so, this becomes an important factor in considering the matter. He had already directed the distance of eight cables or 4,800 feet between the colpulation of the democracy largely depends, and until that must be decided hereafter. Between now and the 1st of August there will be little opportunity afforded the leaders of the party in power for consultation, as most of the districts they represent. By the beginning of the month there will, however, be a return to this city of those upon whom the policy of the democracy largely depends, and until that times personal interest. umns on the mention by the navigator of the flagship of the fact that six cables or 3,600 was a close distance between the columns in details of the organization have been which to turn the ships toward one another. The flag lieutenant having received through the navigator the statement that a change in the distance had been authorized, asked the the distance had been authorized, asked the admiral personally whether he should make the change from six to eight cables distance. Thereupon the admiral seems to have ordered an adherence to the first distance (six cables). What the mental process was which caused him to vary his mind in these several instances of course it is impossible to say, but that his last decision was a mistake we see by these results. That it was faulty in the beginning is clear from the fact that so many others, including Admiral Markham himself, were conscious of this.

THE LESSON OF THE AFFAIR. "The whole lesson of the affair emphasizes the absolute necessity of officers knowing their ships so thoroughly that there can be no quesneuvers are necessary goes without saying.
The melee of an action will probably far exceed in intricacies and in the difficulties in which a commanding officer will find himself

partment that the force of Columbian guards available for all purposes is not sufficient to properly protect the entire public exhibit, and isfactory to the silverites.

"This canvass of strength has been in progress since the day after the issuance of the President's proclamation. It has been pushed actively by means of personal consultation, mail and telegraphic communication. When the canvass was begun the first effect of the antisilver blow was still felt and there was a manifest fear on the part of the silver men that the Sherman law would be repealed. Gradually this fear gave way to hope, and in turn this has been supplanted by defiance."

It is clear that the silver men in Washington are in close touch with their brethren through-

celebration. Before his departure he said to a
STAR reporter that he had been unable
as yet to measure the sentiment of
the House on the public questions of
the day. He said that he did not know

REPEAL OF THE SHERMAN LAW

the Senate. RULES AND COMMITTEES.

There appears to be thus far absolutely no agreement reached as to the program for the extra session of Congress. In a general way the objects to be accomplished are known, and until that time personal interests will demand the attention of the Congressmen. No arranged, the question of the rules has not been taken up, and above all the solution of the financial problem has not been approached. The leaders of the House have in contemplation the measures upon which most of the time of the next Congress will be spent, and are aware of the end which they wish to gain. In an informal way the leaders of the Senate have been conferred with on this subject and a general understanding exists. The administration is understood to be in harmony with these suggestions so far as they concern two or three measures and upon the others is believed to be indifferent. Some time ago The Star stated that during the next Congress an effort would be made to repeal the federal elections law, the 10 per cent tax on state banks, the Sherman law, and, through a tariff bill, to revise the tariff to a considerable extent. Reductions that will have a material effect upon the present rates are very likely to be upon the present rates are very likely to be substituted. These, together with an income tax bill, will probably engage most of the time

of the Fifty-third Congress. THE PROSPECT OF BEPEAL. With the apparent intent of the President in his proclamation to call the particular attention Congress to what he considers a perilous ceed in intricacies and in the difficulties in which a commanding officer will find himself placed any of the maneuvers which modern naval tactics lay down as part of their practice. It is the alert, self-possessed, resourceful and trained men who will come out best in such circumstances. It is the alert, self-possessed, resourceful and trained men who will come out best in such circumstances. TROOPS FOR THE FAIR.

TROOPS FOR THE FAIR.

The Department Considering the Question of Sending More Soldiers.

The Question of increasing the force of regular to be felt, But even there, without a more stringent at troops at the world's fair is now being constituted in the difficulties in which a commanding officer will find himself placed any of the maneuvers which modern naval tactics lay down as part of their practice. It is the alert, self-possessed, resourceful and trained men who will come out best in such circumstances. The open who are now loudly demanding that this law or at least that clause in it which requires the purchase of 4,500,000 ourses of silver each month shall be wiped from the statute books. In the House, therefore, this popular feeling is more apt to be felt. But even there, without a more stringent saldered by the Secretary of War. The manresponsibility which they are willing to accept

THE FIGHT IN THE BENATE. The Senate will be the scene of the bitter fight which seems bound to occur over the repeal. In that body are men who represent the very life or death of the white metal; men who are able and earnest, and they boldly announce that they will never give up the Sherman law unless they can be conciliated with a measure that is more friendly to silver. With the determina-MR. CRISP UNCERTAIN.

He is Not Yet Sure as to the Prospects of the Repeal of the Sherman Law.

Ex-Speaker Crisp left at 10 o'clock last night for New York, where he is to deliver today one of the short speeches at the Tammany Hall celebration. Refers his descriptor has been delivered to the force held was trying to be forced the short speeches at the Tammany Hall celebration. Refers his descriptor has been delivered to the force held was trying to be forced the same trying t He has been engaged in the building of a new home in Atlanta, and not anticipating a session at quite such an early day he had not given any serious consideration to the question of the rules to be adopted or to the reorganization of the upon their former allies to fulfill the pledges, and it is reasonable to expect that they will do so. With such a combination the adoption of a cloture in the Senate the earnest purpose of doing what is right, but that until the party leaders had gotten together and talked the matter over it seemed to him to be impossible to form

Upon the reorganization of the House or the rules which will govern it absolutely nothing has been done, but between this time and the latter part of this month both will receive generally understood at the beginning of the last Congress when Mr. Crisp was making up the committees that the committees expired with the session, and city for a few days, returned to Washington last night and was cross-examined by a Star reporter today as to the recently printed report that Ohio was in danger of having two candidates for sergeant-at-arms of the House.

"There is not the slightest danger of such a complication," said Mr. Johnson. "The democratic members from Ohio will in due time meet, as they always do in such cases, and unite in the matter of sergeant-at-arms. There never has been a thought of any other course. At the last election in Ohio the democrats took lieve that they will again have the committees expired with the session, and that fitness and ability and not precedence or length of service should decide a members qualifications to be given a chairman ship. It is not unlikely that the committees at the approaching session will be chosen upon the same grounds. At the committees at the approaching session will be chosen upon the same grounds. At the committees at the approaching session will be chosen upon the same grounds. At the organization of the last House time of the organization of the same grounds. At the committees at the approaching session will be chosen upon the same grounds. At the organization of the last House time of the organization of the last House time of the organization of the same grounds. At the committees at the approaching the chosen upon the same grounds. At the organization of the last House time of the organization o there are members who undoubtedly believe that they will again have the committees
which they presided over last session who will
be doomed to disappointment. Absolutely no
pledges have been given to any one that he
will retain his old place or that he who was
without a committee before will have
one this time. It is a natural inference that the administration has indicated to
the leaders of the Congress their wishes upon
certain questions regarding what shall be accomplished and the make-up of the committees,
but such impressions are without foundation in but such impressions are without foundation in fact. The administration has not interfered mittee on ways and means, has been during the summer months, with the expectation o mittee, preparing a tariff bill for the consideration of the members of that com-mittee, but it is not likely that the bill will come before the committee except through its introduction in the House, nor is it considered the head of that committee. GEN. HARRISON SPEAKS.

Duties of Citizenship. CAPE MAY, N. J., July 4.-Ex-President Harrison made a patriotic address here today upon the rights and duties of citizenship. The ex-President's eloquent words were attentively listened to by a large crowd of people and he was loudly applauded when he concluded. After the delivery of his address Gen. Harrison held an impromptu reception and shook hands with most of his auditors.

The Chicago Fair Ablaze With Patriotism.

"OLD GLORY" IS WAVED EVERYWHERE

All Nations Pay Tribute to the Occasion.

The world's fair was ablaze with patriotism today. It was the center from which the patri-

Seventeen years have elapsed since these stirring scenes were enacted, and today in the metropolis of the west the second world's exposition of the republic gave occasion for a still greater demonstration of love of flag and of country, one which in its magnitude and impressiveness kept pace with the growth of the country in the intervening years and with the magnitude of the Columbian exposition as compared with those that have gone before it.

Chicago's 2,000,000 of permanent populatio kept holiday today, and half a million of strangers from outside points, far and near, helped it to celebrate. All over the city, in the suburban residence districts as well as in the commercial center, the usual stillness of the night was broken by the cracking and booming of fireworks and the shouts of merrymakers who were making a night of it so that the world's fair leaves and the stroke of noon the Paul Jones flag was hoisted and the electric button dedicating the Fourth might be appropriately ushered in with the true American spirit.

Day broke to the accompaniment of a salute of a hundred guns from the gunboats in the lake, and the reverberations of the cannon awoke the sleepers and gave them notice that it was time to be up and moving.

N. Y., was pressed by Mrs. Madge Morris Wagner and Miss Minnie F. Mickley of San Disgo, Cal.

with national airs that stirred its blood and kept it in enthusiastic mood.

Three bands were grouped on the ficor—the Second Regiment, Pullman and the Chicago Band. Silas G. Pratt was conductor for all. He stood on the stairway a few feet above the heads of the musicians with a program of the music in one hand and a book in the other, using both as batons to bring out the volume of patriotic melody to its fullest extent and in the most harmonious unison.

They played the Doxology, "Red, White and Blue," "Star Spangled Banner" and "America," while the multitude applauded after each selection.

The concourse had need of patience, for it was not until 11:20 that Director General Davis, arm in arm with Vice President Stevenson, appeared at the head of the steps leading to the platform, and a mighty shout went up from 200,000 throats. Behind the director general and the Vice President came the mayor and corporation, the national commissioners and board of directors, the lady managers and several hundred special guests of the occasion. Below the platform were the members of the Columbian chorus, men and women, 1,500 of them, each with a big flag that later on was to be waved in triumph to signalize the touch of the electric button that was to dedicate the new liberty bell a thousand miles across the continent.

with national airs that stirred its blood and

While the guests were being seated on the platform renewed enthusiasm was created by the appearance of the venerable but sprightly the appearance of the venerable but sprightly woman from Martha's Vineyard, Mass., Mrs. Stafford, who carried in a card-board box her precious possession, the first American flag. She kept, it close to her as she smiled and bowed her acknowledgments to the cheering multitude. She was given a seat underneath the small flagpole erected for the purpose of receiving the flag, which was fastened to the line ready for the hoisting by Mrs. Stafford's infirm hand at the stroke of 12 o'clock.

When the last of the guests had been seated

THE VICE PRESIDENT'S REMARKS.

NEW YORK, July 4.-At the Tammany celebration in the 14th street wigwam today the following letter from President Cleveland was

EXECUTIVE MANSION, WASHINGTON, D. C.

At such a time it is fitting that we rejoice in the dauntless purpose and constant devotion that have thus far marked out the way of our great nation. We should lose the most important lesson of the day we celebrate if we forget that the labor and diligence of those intrusted with self-government must be uppermitting and

seeking procession which for hours filled the broad Plaisance from side to side. Across the Plaisance from Cottage Grove avenue to the Stony Island avenue viaduct, which forms the east entrance inside the grounds, were strung, at intervals of a few yards, the prettiest arrangement of bannerets and Chinese lanterns that the eye of man ever beheld. On each side of the Plaisance throughout its whole length were also dancing, fluttering lines of the same heterogenous colored mass connecting with the cross lines.

Midway Plaisance is at all times gorgeous in decoration and constant variation of scene, but the display made by the people of all nations in honor of Uncle Sam's birthday anniversary changed the whole aspect of the cosmopolitan thoroughfare. The moving mass of humanity
